ABOUT ME

Detail-oriented Information Technology Master's student at Frankfurt University of Applied Sciences with over three years of professional experience in IT support, data engineering, and application maintenance. Experienced in first-level technical support, system integration, remote system administration, server troubleshooting, and technical documentation. Strong background in EMV data processing, application support, and resolving technical issues while ensuring high service quality and system reliability. Recognized for a customer-focused mindset, strong analytical abilities, and effective collaboration in fast-paced environments. Committed to delivering efficient IT solutions and continuously expanding expertise in enterprise and municipal IT systems.

WORK EXPERIENCE

● Silkways Card & Printing Ltd.

Data Engineer

Jun 2020 – Jul 2023

- Processed and maintained large datasets, ensuring data accuracy and quality across systems.
- Developed automation scripts to improve data governance and workflow efficiency.
- Created detailed documentation and visual reports to support data-driven decision-making.
- Collaborated with teams to analyze and communicate complex data insights effectively.
- Supported system integration and performance optimization with a focus on data reliability and compliance.
- Supported the preparation of communication materials such as presentations, visuals, and newsletters for HR and data-related topics.
- Conducted research and contributed to data governance and data quality improvement initiatives.
- Collaborated with cross-functional teams to support HR data projects aligned with corporate strategy.
